Dark Web Monitoring Intern | Web Developer | Blogger | Video Editor
| Vel Tech University
Chennai, Tamil Nadu, India

Summary

As a final year B.Tech CSE student, I am a multifaceted professional
with a passion for technology and creative expression. I have
experience in full-stack development, video creation, content writing,
blogging, managing Instagram accounts, and website management.
Throughout my academic journey, I have developed a diverse skill
set that enables me to bring innovative solutions to the table.

In terms of technical skills, I am well-versed in developing web
applications and websites using a variety of technologies such as
HTML, CSS, JavaScript, React, and Node.js. I have experience with
database management and working with SQL and MongoDB. I am
constantly learning and exploring new technologies to stay ahead of
the curve.

In addition to my technical skills, I am also a creative individual.
I enjoy creating engaging video content, writing blog posts and
articles, managing Instagram accounts, and designing and
developing websites. I have a keen eye for detail and am passionate
about delivering high-quality work that exceeds expectations.

As an entrepreneur at heart, I am always looking for opportunities
to create value and make a difference in the world. I have taken
on various projects throughout my academic career, including
developing websites for local businesses, managing social media
accounts, and creating engaging video content for non-profit
organizations. These experiences have taught me valuable lessons
in project management, teamwork, and communication.

I am excited to connect with like-minded individuals and explore
new opportunities to apply my skills and make a meaningful impact.
Whether it's working on a challenging project or collaborating with
others, I am always ready to take on new challenges and learn new
things.
